# FREIGHT RATE CUT TO SANTO DOMINGO

Seduction of 20 P. C. Made, but Rice and Lumber Are Excepted.

A 20 per cent. reduction in northbound and southbound tariffs will be made effective September 26 th Santo Domingo and return from Atlantic and Gulf ports, it was learned yesterday. All commodities are affected except rice, lumber, explosives, cement and spaghettl, on which the rates are unchanged.

No explanation was given for the cut, which was done by conference action, other than that the movement of traffic was expected to be stimulated. In some quarters it was pointed out that a break in Porto Ricana ates mig.t. make it profitable to transship for Santo Domingo and that this was the real cause of the conference action. This was denied, howference action. This was denied, how-ever, and it was said that there had been no change in Porto Rican rates sufficient to introduce the possibility of profitable

transhipment.
Concurring in the Santo Domingo reduction were the Clyde-Santo Domingo Line, Bull Insular Line, Columbus Steamship Company, Page & Jones, Lykes Bros. and Lone Star Steamship

Company.

The freight market was stirred by a persistent report that grain rates to the Continent and United Kingdom had been closed by the conferences, thus bringing to an end a long period of open competition for the principal eargo in transatiantic trade. To Hamburg and Rotterdam, it was said, the established rate was to be 8 cents a hundred pounds in September, 9 cents in October and 12 cents in November, while to United Kingdom ports the October rate was to be 1 shilling 6 pence a quarter, while the November rate was to be 1 shilling 5 pence. Recently prevailing rates have been 8 cents to Hamburg and 1 shilling 3 pence to the United Kingdom.

### SHIPBUILDERS SUPPORT TARIFF AS IT STANDS

TARIFF AS IT STANDS

Unable to Reach an Agreement With Repairmen.

Shipbuilders and repair men, after a series of meetings, have decided to support the tariff bill as it now stands, H. C. Hunter, counsel for the New York and New Jersey Drydock Association, said yesterday. The shipowners had asked the repair men to consent to the elimination of the provision placing a 50 per cent, duty on ship's equipment acquired abroad and on repairs executed in foreign yards with the exception of those necessary for the completion of the voyage. The present bill fixes this duty on vessels on foreign and coastwise services, whereas other enactments have applied only to ships on the Great Lakes.

On behalf of the shipowners it was

ments have applied only to ships on the Great Lakes.

On behalf of the shipowners it was said that the decision of the repair men was greatly regretted. The owners were ready to support the provision of the subsidy bill requiring repairs on vessels receiving compensation to be made in American yards, but thought there should be no protection to the yards unless there was protection for American ships, or an additional bar to their competition with, foreign vessels would be set up.

### MARINE NEWS NOTES.

The engagement of Rear Admiral D. W. Taylor as consulting expert in ship design, construction and operating economics was announced yesterday by the American Ship and Commerce Corporation. Admiral Taylor was chief constructor of the United States Navy up to his retirement July 1. He received the gold medal of the British Institute of Naval Architects for the best original paper on ship shaped stream forms.

The Nagasaki Maru, a new steamer of the Nippon Yusen Kaisha, is receiving her finishing touches at Glasgow, and will be ready to enter the European service late next month. She is 5,500 gross tons, with accommodations for 150 first class passengers.

Karl Stenning, director general of the North German Lloyd, arrived aboard the first visit to this country since reaching his present position. He will go at once to Washington to discuss agency questions with Chairman Lasker of the Shipping Board.

Frank C. Munson, head of the Munson Line, said yesterday that he had been "much pleased" by a Washington dis-patch that the Leviathan might be placed in the South American service.

Details of the proposed harbor development for Tokio have been submitted to the authorities, according to advices to Japanese steamship lines. The estimated cost is 359,000,000 yen, the plans calling for a breakwater 49,350 feet long, the dredging of large harbor areas and the building of a berthing quay wall with a total length of 67,092 feet.

The corrected reading of the barometer (reduced to sea level) at New York on Friday, Sept. 15, 1922, at 8 AM, as reported by the United States Weather Bureau, was thirty and sixteen-hundredths (20.16) inches. This closely approximates seven hundred and sixty-six (765) millimeters. Cantains of all vessels now lying in or near the ports of New York and Brooklyn can advantageously use the above official data for observing whether their own barometers roulire any considerable correction or adjustment.
